

ShipmentPlanner.com

Plan, pack, ship faster.

Optimize shipments to 3PL and Amazon warehouses in one powerful platform.

eCommerce sellers

Faster Time to Ship

Warehouse managers

Coordinate shipment preparations
across multiple warehouses

Logistics Teams

Take full control of shipment
documentation, tracking, and
fulfillment.

Trusted by e-commerce teams across Europe for
optimized pallet layouts and warehouse coordination.

What do we solve?

- We need to send 500 SKU X to Amazon.de. How many package boxes/pallets is that?
- Which package box is used for SKU X?
- How many SKU X fit into package box Y?
- How do you pack SKU X into package box Y?
- Does SKU X need a FNSKU/EAN label?
- Does a pallet box with 16 units of SKU X require a heavyweight label?
- Is shipment X already prepared?

COMMON PAIN POINTS

- Managing packaging and shipment data in Excel is inefficient and time-consuming
- Manual SKU-to-package conversions waste time and cause errors
- Inefficient pallet loading increases the number of pallets and shipping costs
- Fragmented warehouse communication slows down operational execution

What is ShipmentPlanner?

All-in-one shipment planning platform

Specifically designed for e-commerce teams shipping to Amazon and 3PL warehouses to optimize operations.

CORE CAPABILITIES

- All data about SKUs and packaging with instructions, images, and descriptions in one place
- Convert SKU quantities into precise package counts automatically
- Optimize pallet layouts at the layer level for maximum capacity (if using pallets)
- Export plans directly to Amazon Shipment Templates
- Handle heavyweight and package labels
- Track preparation, status, and collaboration with warehouse staff

Benefits and Outcomes

VALUE PROPOSITIONS

- **Faster operations**

From number of SKUs needed to number of package and pallet boxes to number of pallets. Finally with direct Amazon template export you create a shipment in no time.

- **More items per pallet**

Layer-level optimization reduces overall shipment count.

- **Lower shipping costs**

Require fewer pallets and optimize preparation times, saving hours per week.

- **Aligned warehouse teams**

All info in one place. Clear packing instructions, packing images, and seamless status of shipment flows.

Your next optimization!

Simple pricing — Pay by pallets. Billed yearly.

All volume-based plans include a **3-month free trial** (no credit card required). Prices exclude VAT.

Starter

< 5 pallets / month, unlimited package boxes

\$20/month

billed yearly
